IN THE SPECIFICATION:

Page 35, line 15, change "312" to --112--;

line 16, change "314" to --114--; and

line 17, change "316" to --116--.

Page 36, line 5, change "312" to --112--;

line 6, change "310" to --110--;

line 7, change "320" to --120--;

line 12, change "342" to --124--; and

line 13, change "326" to --126--.

Page 37, line 4, change "330" to --130--; and

**BEST AVAILABLE COPY**

line 10, change "332" to -132-.

Page 51, line 19, change "5,475,732" to -5,478,732-.

IN THE CLAIMS:

Please amend claims 1, 3 and 9 as follows.

1. (Amended) A method of voice communication between two terminals including the steps of:
establishing a voice communication link between said terminals via a first landline public packet switched network;

[communicating by] carrying voice information between said terminals over said link;
monitoring [a parameter of said] quality of service of communication in said public packet switched network;

establishing a second voice communication link between said terminals via a second landline packet switched network when said monitored [parameter] quality of service departs from a predetermined value.

3. (Amended) A method according to claim 1 wherein said establishment of said second voice communication link occurs automatically [responsive to said parameter departing from said predetermined value in excess of a predetermined limit] in response to the monitored quality of service falling below a predetermined threshold.

9. (Amended) A method [according to claim 6] of voice communication between two terminals including the steps of:

establishing a voice communication link between said terminals via a first packet network;

communicating by voice between said terminals over said link;

monitoring a parameter of said communication; and

establishing a second voice communication link between said terminals via a second packet network when said monitored parameter departs from a predetermined value;

wherein said terminals are connected to said first and second voice communication links via a switched network and

wherein said second packet network comprises a control network for said switched network.

REMARKS

The preliminary amendment is being filed to incorporate the preliminary amendments as filed in parent application Serial No. 08/931,985. Entry of this preliminary amendment is respectfully requested.

Respectfully submitted,

MCDERMOTT, WILL & EMERY
